Hyderabad, India

PROFESSIONAL SUMMARY

Backend Developer with 2+ years of experience building scalable APIs, microservices, and data-driven systems. Strong skills in Node.js, Express.js, NestJS, MongoDB, PostgreSQL, and distributed system design. Built high-availability platforms handling 2M+ daily transactions, improved database performance, and delivered reliable automation, caching, and monitoring solutions.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, Python, Java
Backend: Node.js, Express.js, NestJS, Microservices
Databases: PostgreSQL, MongoDB, MySQL, Redis
Cloud/DevOps: Google Cloud, Docker, CI/CD, Linux
Tools: Git, GitHub, Postman, JIRA, BigQuery
Concepts: System Design, OOP, TDD, Distributed Systems

WORK EXPERIENCE

Software Developer Oct 2023 – Present
JIO PLATFORMS LIMITED, Hyderabad, India

- Developed and optimized REST APIs and microservices handling 2M+ daily transactions with 99.9% uptime.
- Built real-time payment insights dashboard using MongoDB aggregation for 500+ active users.
- Automated billing and invoice workflows, reducing manual work by 70%.
- Improved MongoDB performance with better schema design and indexing (60% faster queries).
- Created scheduler services handling 10,000+ daily tasks with retry logic and error control.
- Integrated ChargeIt payment gateway with secure logging and error tracking.
- Added Redis caching, reducing database load by 40% and improving response time.
- Worked in Agile teams and improved development speed through code reviews and CI/CD.

KEY PROJECTS

Distributed E-Commerce Backend System — NestJS, PostgreSQL, Redis, RabbitMQ, Docker
github.com/sunny1392/ecommerce-backend

- Designed microservices system supporting 10,000+ concurrent users with 99.9% uptime.
- Built 5 microservices (User, Product, Order, Payment, Notification) with event-driven communication.
- Implemented Redis caching cutting database queries by 65%.
- Designed PostgreSQL schema for 1M+ products with optimized indexing.
- Added JWT auth with RBAC, webhook payment workflows, and real-time stock updates.

EDUCATION

B.Tech in Electronics & Communication Engineering 2019 – 2023
Birla Institute of Technology, Meera Engineering
GPA: 7.8/10

ACHIEVEMENTS

- Solved 500+ DSA problems on LeetCode.
- High Performer Award at Jio Platforms.
- Highest Story Point Achiever in Q4 2023 (40+ points).
- Mentored 3+ junior developers and interns.
